Any weekend pickup orders need to be placed the Thursday before 12pm.

IMPORTANT NOTICE

Note: Our candy requires proper storage to maintain customer appeal and maximum shelf life.

We recommend temperatures in the range of 65 degrees to 70 degrees and relative humidity below 60%. Items marked with a "." contain cream, butter and/or nuts and should generally be sold within 4 to 6 weeks. Stores selling nut items are strongly advised to have a pest control service and to store bulk nuts (not chocolate) at 35 degrees. Proper stock rotation is the best way to ensure optimum freshness and taste.

Note: Our candy requires proper storage to maintain customer appeal and maximum shelf life. We recommend temperatures in the range of 65 degrees to 70 degrees and relative humidity of 60-70%. Items marked with a "*" contain cream, butter and/or nuts and should generally be sold within 4 to 6 weeks. Stores selling nut items are strongly advised to have a pest control service (or chocolate) at 35 degrees. Proper stock rotation is the best way to ensure optimum freshness and taste.

Prices are subject to change without notice. Effective March 1st, 2016
